Poverty

Child Poverty

The proportion of children living in families in receipt of out-of-work (means-tested) benefits or in receipt of tax credits where their reported income is less than 60 per cent of UK median income.

Source: HM Revenue & Customs

Fuel Poverty

The Low Income High Costs indicator is a twin indicator consisting of:
• the number of households that have both low incomes and high fuel costs; and
**• the depth of fuel poverty amongst these fuel poor households. This is measured through a fuel poverty gap which represents the difference between the required fuel costs for each household and the median required fuel costs.**
Source: Department of Energy & Climate Change

Pension Credit

**Pension Credit is an income-related benefit made up of 2 parts - Guarantee Credit and Savings Credit.**
Source: Department for Work and Pensions (DWP)

Indices of Multiple Deprivation

The IMD measures and rates a number of different domains affecting quality of life including income, employment, education and skills, health and disability, crime, barriers to services and quality of living environments.

Experian Groups

J Rental Hubs

Aged 18-35, private renting, singles and sharers, urban locations, young neighbourhoods.

M Family Basics

Families with children, aged 25 to 40, limited resources, some own low cost homes, some rent from social landlords.

F Senior Security

Elderly singles and couples, homeowners, comfortable homes, additional pensions above state, don't like new technology.

H Aspiring Homemakers

Younger households, full-time employment, private suburbs, affordable housing costs, starter salaries.

E Suburban Stability

Older families, some adult children at home, suburban mid-range homes, 3 bedrooms, have lived at same address some years.

D Domestic Success

Families with children, upmarket suburban homes, owned with a mortgage, 3 or 4 bedrooms, high internet use.

L Transient Renters

Private renters, low length of residence, low cost housing, singles and sharers, older terraces.
